A motion was made by Mrs. Garrity to accept the Treasurer's Report, the Transfer of Funds Report and the Internal Claims Auditor Review of Warrants Report for file.

ITEMS FOR INFORMATION

Construction Report - Mr. Van Cott introduced Bob Cascone, the district architect, and Mr. Brunie, interim director of facilities. Mr. Van Cott presented the construction report (as attached to the records of this meeting). He advised that the summer projects at the high school and School #2 are on schedule and the buildings will be ready for the opening of school.

Questions were raised by community members concerning safety procedures while construction is taking place at the high school since students and staff are entering and exiting the building. Mr. Van Cott stated that safety is the district's most important concern. It was stated that students should enter the high school in the front circle for the rest of the week. They should all enter in the front circle and leave through the back. Most of this work will be completed within the next two days and the remainder of the work will be staged away from school activities.

Superintendent's Reports

Professional Development/Overnight Field Trips – As Submitted

Elementary Summer Academy/CARES – Dr. DeRosa provided information on the summer programs which took place in the district. Over 985 students participated in our recreation program. Despite the heat, attendance was outstanding. We offered elementary summer recreation remediation programs at

our newly-designed Summer Academy. Students were provided with remediation services directly at their recreation site which eliminated transportation costs. The program was very successful and well received.

Summer Curriculum/Professional Development – Mr. Fenter advised that English/Language Arts teachers at the secondary level have been working over the summer with Dr. Ziogiannis to develop Frameworks of Learning to align with the learning standards. The social studies teachers meet each summer to develop curriculum. At the high school Big History is being expanded to the 9th grade level. High School teachers have been working to revise the geometry program so that our students can be successful. At the elementary level, we will be expanding the technology initiative. Teachers have worked over the summer with Dr. Rose to modify the Spanish II program. Special education teachers at the middle level have worked to ensure the curriculum was adequate to meet student needs.

Enrollment – Dr. Harrington advised that the only class which may go over the Board guidelines is Grade 3 at School #9E. Presently, it is one above the guideline. If the number goes above, we are prepared to break the section.

OPPORTUNITY FOR MEMBERS OF THE COMMUNITY – Questions were raised concerning the purchase of classroom supplies through BOCES and the superintendent’s contract.
